

MOORING ROPE

FISKEVEGN MANUFACTURES AND SUPPLIES MOORING ROPES FOR VARIOUS PURPOSES.

Danline is a popular choice for mooring ropes. Danline fiber is known for its high strength and good durability. The material is UV stabilized, does not rot, withstands most acids and alkalis, does not absorb water and floats in water.

We also offer mooring ropes from polyester and HMPE fibers.

X-BRAIDED DANLINE

DIA (mm)	Article no.	Approx. mer. per kg	Breaking strength
3	270351	200	190
4	270451	150	280
5	270551	90	360
6	270651	50	480
7	270751	40	660
8	270851	32	850
10	271051	22	1320
12	271251	13	1650
14	271451	10	1700
