

Fiskevegn 8-strand braided rope made from high quality Danline.

LEADROPE / LEADLINE

LEADED ROPE OR LINE ELIMINATES THE NEED FOR SINKERS ON THE NET, REDUCING WEAR AND TEAR ON THE NET, AS WELL AS EASING THE WORKLOAD

Produced in Danline fiber, leadrope is 3-strand and contains 1 or more strands of beaded lead. This product is delivered from 6 - 22 mm with weights up to 1 kilo per meter.

Leadline and heavy lead cables are fiber stockings braided around a core of beaded lead. These products are produced in weights from 1,2 kilos per 100 meters up to 10 kilos per meter, which is a specialized product for fish farming and seine netting.
